

A/C Tools

A/C Tool Kit P/N 211035

A/C Tool Kit includes, Low Side Service Coupler, Duct Thermometer, Universal Valve Core Tool, Orifice Tube Service Kit, R134a Valve Core Removal Tool, R12 Port Thread Repair Tool, R134a Service Port Reamer Tool, Ford Spring Lock Set (4), O-Ring Removal Tool, Bridgeport Sockets, Universal Gaskets & Depressors, R134a Field Service Coupler O-Rings and Tank Adapters.

Sealant "Quick Detect" Kit P/N 216040

The RTI Sealant Detector Kit includes everything you need to make a fool proof determination of the presence of leak sealant. It quickly lets you know if an A/C system sealant has been added to the A/C system. Once you know that sealant is not present you can safely recover the refrigerant and start repairs. Don't risk contamination of your A/C equipment. Kit includes re-usable A/C system couplers and enough replacement cartridges to sample 10 vehicles. 25 pack of replacement cartridges, P/N 216045.

Orifice Tube Removal Tool, Deluxe Set P/N 211018

Corroded in place orifice tubes are easily removed with this handy removal set.

Condenser Blow Gun P/N 211039

This extra length blow gun makes quick work of cleaning dirt and debris from the condenser and radiator.
