New from RTI: Free Filters and Carbon Bed Replacements Throughout the Warranty Period!

Proper maintenance of the NitroPRO[®] nitrogen tire inflation machine is critical to top performance and required to maintain the machine's warranty. Now, for all popular models, the filters and carbon bed replacement kits needed for 60 months of operation are included at no extra charge when you purchase a new NitroPRO[®] Tire Inflation System from RTI. (Customer must pay shipping and handling.)

Here's How It Works:

Each year, when your NitroPRO[®] machine is due for scheduled filter maintenance, send us the appropriate redemption coupon included with your unit and we'll send you the required filter and/or carbon bed replacement kit that is required for your machine, free-of-charge. It's that simple! (Shipping and handling not included)

The free filter redemption coupons supplied with the machine are a one-time issue that cannot be replaced. Make sure you store them in a safe location.

Scheduled maintenance for NitroPRO[®] NTF models*

	Filter	Carbon Bed
Delivery/Setup	None Req-d.	None Req-d.
End of Year 1	Replace	
End of Year 2	Replace	Replace
End of Year 3	Replace	
End of Year 4	Replace	Replace

*Required to maintain NitroPRO[®] equipment warranty
